LENAD
Levantamento Nacional de Álcool e Drogas

Method

Design

- Nationally representative repetitive cross sectional study

Sampling

- Multistage cluster sampling
- Stratification based on Brazilian Statistic Center IBGE

Exclusion Criteria:

- **Indigenous populations**
- **Non portuguese speakers**
- **Serious Cognitive Impairment**

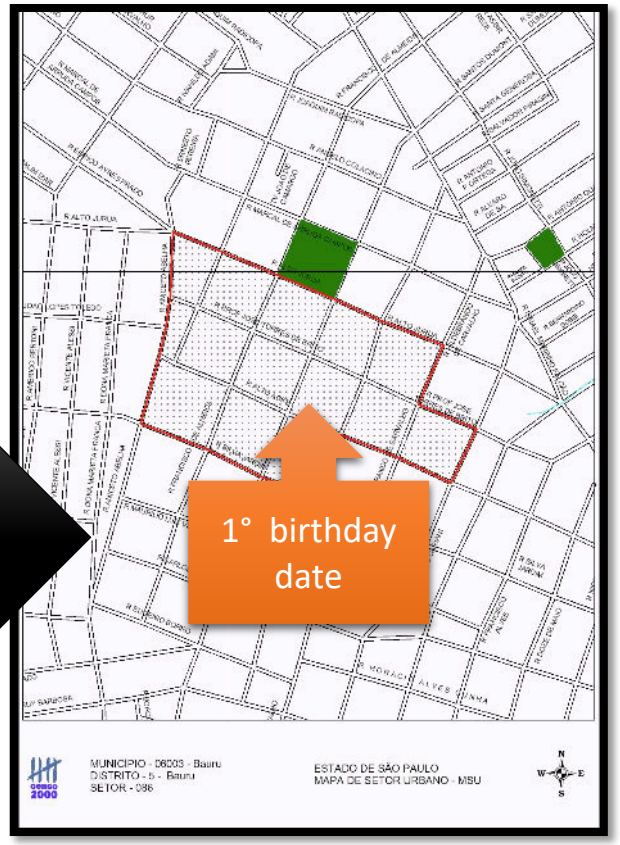
Ipsos

Stratified Probabilistic Sampling

4 Stages:

1º: Selection of cities (ppt)
2º Selection of census tracts (ppt)
3º Selection of household
4º Selection of participant (date of birthday)

Example



Levantamento nacional sobre o padrão de consumo de bebidas alcoólicas

2006

- **147** Randomised cities (1)
- **70** Trained Interviewers (1)
- **3007** Participants 14yo + (1)
- **Oversample** Adolescents n=601 (1)

Método LENAD

II LENAD
Levantamento Nacional de Álcool e Drogas

2012

- **149** Randomised cities (2)
- **100** Trained Interviewers (2)
- **4607** Participants 14yo + (2)
- **Oversample** Adolescents n=1157 SP n=1160 (2)

LENAD
Levantamento Nacional de Álcool e Drogas

III LENAD
Levantamento Nacional de Álcool e Drogas

Sampling

- **Main Sample:**
12.000 aged 14yo +

- **Adolescent oversample:**
4.000 14/18yo

- **Self representative cities:**
(440 census tracts)
- **Random selection cities:**
population => 333.547
- **11.334 census tracts**
- **9 interviews per tract**

DSM-IV

DSM-V

sds

ncpic national cannabis prevention and information centre

severity of dependence scale (sds)

Over the last 3 months:

1. **Did you ever think your use of cannabis was out of control?**
   - Never or almost never ☐ 0
   - Sometimes ☐ 1
   - Often ☐ 2
   - Always or nearly always ☐ 3

2. **Did the prospect of missing a smoke make you very anxious or worried?**
   - Never or almost never ☐ 0
   - Sometimes ☐ 1
   - Often ☐ 2
   - Always or nearly always ☐ 3

3. **Did you worry about your use of cannabis?**
   - Not at all ☐ 0
   - A little ☐ 1
   - Quite a lot ☐ 2
   - A great deal ☐ 3

4. **Did you wish you could stop?**
   - Never or almost never ☐ 0
   - Sometimes ☐ 1
   - Often ☐ 2
   - Always or nearly always ☐ 3

5. **How difficult would you find it to stop or go without?**
   - Not difficult ☐ 0
   - Quite difficult ☐ 1
   - Very difficult ☐ 2
   - Impossible ☐ 3

sds score _____ / 15

(NB) Please note there are two cut-off scores: one for adults; SDS score of 3 and the other for adolescents; SDS score of 4.

Swift, W., Copeland, J. & Hall, W. (1998). Choosing a diagnostic cut-off for cannabis dependence. *Addiction 93*, 1681-1692.

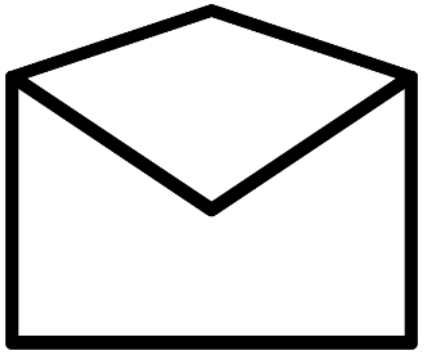
Self administrated questionnaire

Discrecy & Anonomicity



- ✓ All illicit drug use
- ✓ Suicide history
- ✓ Childhood adverse experiences (sexual violence)
- ✓ Hunger
- ✓ Risk expositions (unprotected sex, chemsex, promiscuity)
- ✓ Rape
- ✓ Prostitution

Ethics

PSYCHOLOGICAL SUPPORT TO PARTICIPANTS

Partnership with CAISM

Sobre o CAISM

O Centro de Atenção Integrada à Saúde Mental da Vila Mariana – CAISM VM – visa a oferta de serviços acadêmicos e assistenciais à saúde mental da população.

O CAISM VM dispõe de atendimento para diversas especialidades. São atendidos pacientes com condições psiquiátricas ou decorrentes do uso de substâncias psicoativas, de várias faixas etárias – crianças, adolescentes, adultos e idosos, objetivando oferecer uma assistência integral e de qualidade.

CONHEÇA NOSSO TRABALHO

LENAD
Levantamento Nacional de Álcool e Drogas

Limitations

- Cross sectional design
- Self-report measures
- Small sample of drug users
- Household study x crack use pattern

Strengths

- Nationally representative sample
- Validated measures
- Good response rate
- Adolescents oversample

COORDINATION

DIRECTOR & TED COORDINATOR

Ronaldo R. Laranjeira

Graduação em Medicina pela Escola Paulista de Medicina (1982), Residência em Psiquiatria pela EPM (1984) e Phd em Psiquiatria pela Universidade de Londres (1994). Professor titular do Departamento de Psiquiatria da Universidade Federal de São Paulo. Orientador do programa de pós-graduação em Psiquiatria e Psicologia Médica da UNIFESP. Diretor da UNIAD (Unidade de Pesquisa em Álcool e Drogas) da UNIFESP. Diretor-Presidente da SPDM - Associação Paulista para o Desenvolvimento da Medicina.

Currículo Lattes: http://lattes.cnpq.br/4152477223577402

Reseach Coordination

Clarice Sandi Madruga

Graduação em Psicologia pela PUCRS (2000), Mestrado em Neurociências (UFRGS - 2003), Mestrado em Psicologia com ênfase em Dependência Química (Substance Misuse, Sussex University - 2006), Doutorado e Pós-doutorado em Psiquiatria e Psicologia Médica (Universidade Federal de São Paulo / UNIFESP e Kings College London - 2012). Professora afiliada e pesquisadora do Departamento de Psiquiatria da UNIFESP. Pesquisadora da Unidade de Pesquisa em Álcool e outras Drogas (UNIAD). Coordena o Levantamento Nacional de Álcool e Drogas (LENAD) e o Levantamento das Cenas de Uso das Capitais (LECUCA).
